PRIMARY CURRICULUM AND SUBJECT KNOWLEDGE PACKAGE FOR ECTs

This CPD package is designed to complement the statutory requirements for ECTs (i.e. undertaking induction through an Appropriate Body and completing the Early Career Framework (ECF) training). The package will focus specifically on primary curriculum subjects, developing curriculum understanding and pedagogy through three days of face-to-face training. This training is open to all KS1 and KS2 ECTs and is not dependent upon any particular Appropriate Body or ECF training provider.

We aim to support schools with developing teachers' subject knowledge, appropriate to the Key Stage they teach in, covering all the core and most foundation subjects. The package is ideal for ECTs in their first year, bridging the gap between their ITT and becoming a fully qualified teacher.

The training package would also be beneficial to: ECTs in their second year, especially if they have changed year groups, those changing age phase, teachers who are overseas trained or those return to teaching. For ECTs who join at a point other than September, provision will be made for them to access the full package.

Three full days of key stage specific curriculum subjects training, at the Hertfordshire Development Centre (HDC), Stevenage:
