AUTUMN 2025 GCSE MATHEMATICS REVISION BOOSTERS FOR STUDENTS.

LIVE, ONLINE WORKSHOPS LED BY EXPERT MATHS SUBJECT SPECIALISTS

Led by our secondary Maths advisers, these autumn term workshops will support revision for Year 11 mock examinations. They will also be useful for students in Years 12 and 13 who may be re-sitting GCSEs in November.

These workshops are designed as active sessions, with students encouraged to engage with activities and GCSE-style problems, send in responses and ask questions.

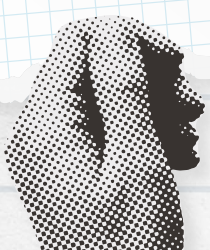
The focus of each workshop will be 'crossover' content – topics that could appear either on Foundation or Higher Tier papers. They will be suitable for anyone aiming for Grades 4 or 5 at Foundation Tier and provide consolidation for students aiming for Grades 6 or 7 at Higher Tier.

There will be one workshop per week, on four consecutive Tuesday evenings.

All workshops will be recorded so students who miss part or all of a session can catch up later. The recordings can be instantly accessed using the original joining link sent to everyone who has booked a place.

Once places have been booked, students will need their school e-mail address to access the sessions.

As in previous years, there will also be a full programme of Saturday revision workshops, scheduled for March 2026



£10

per student per session, or save with a bundle - £35 for all four sessions (inc. VAT)
