

AQA GCSE SCIENCE REMOTE REVISION SESSIONS – SPRING 2026.

Delivered by HFL Education's experienced science advisers, these online sessions are designed to motivate and challenge students through active and engaging revision. The sessions run throughout the spring term, with 9 sessions targeted at Grades 6/7 and 14 targeted at Grades 4/5.

The sessions will focus on:

- supporting students to feel exam ready
- providing tried and tested exam strategies and revision techniques
- sharing high-quality responses and model answers
- reviewing key Maths and Required Practical skills within relevant science content
- giving students the opportunity to complete a range of focused revision activities

Each session is 50 minutes long, and the students will be able to interact with the science advisers delivering the session.

The sessions targeting Grades 6/7 will run after school in February and March 2026, while the Grades 4/5 sessions will take place during the Easter holidays, allowing students to attend two or three consecutively with breaks in between.
